

**Notice: Orientation of NQAS External Assessors on Virtual Assessment under National Quality Assurance Programme**

During COVID 19 pandemic, conduct of physical assessment of health facilities has not been possible under National Quality Assurance Programme. Therefore, it was planned to undertake certification assessments of public health facilities through virtual platform.

While conducting online external assessment, NQAS External Assessors, who are undertaking assessment are coming across difficulties and clarity might be required in this regard.

To address the issues faced during virtual assessment and to orient the NQAS External Assessors, an orientation training on virtual assessment has been scheduled on 22.01.2021 from 11:00AM onwards through virtual platform.

All the NQAS External Assessors are requested to make convenient to attend the said training.

**Orientation training on Virtual Assessment under National Quality Assurance Programme**

**Date: 22.01.2021**

**Time: 11:00 AM onwards**

**\*Link for the workshop will be shared shortly**
