Consultant - Human Resources for Health, National Health Systems Resource Centre

National Health Systems Resource Centre (NHSRC) has been set up under the National Health Mission (NHM) as an autonomous registered society, to provide technical assistance and capacity building support to the states for strengthening the public health system. The NHSRC is also mandated to contribute towards National strategic health planning and programme design.

If you have a commitment to health equity and excellence, here is a unique chance to work with a team committed to shaping the public health landscape in India. The position offers you an opportunity to participate in the process of strengthening primary health systems, improving health service delivery and enabling positive health outcomes, through hands on implementation assistance at national, state and district levels. Working with NHSRC's trans disciplinary team, you can discover, adapt, co-create and test solutions to multiple challenges related to service delivery systems, primary health care, human resources for health, community processes, health financing, quality of care, public health planning and health promotion.

This is an opportunity to support health systems strengthening at scale, learn from district and sub district implementation, undertake knowledge translation, and enable realization of the vision of universal health coverage.

Terms of Reference

- Systematic collection, documentation & presentation of information regarding human resources for health, health systems and health needs including inputs for key decision makers.
- Analysis/review of data from HMIS and other health sources & its use for decision makers and the support to states and districts.
