

Rajasthan Online TB Trainings Review

To mitigate Covid-19 challenge, Rajasthan initiated periodic online Review Meetings at State, Zonal & District level and ensured continued NTEP review with optimal engagement of all stake holders. Furthermore, the state also initiated online Nikshay training for NTEP staff to address the gaps in capacity building.

| S.N. | Three Tier Review VC Levels | Number |
|------|--|--------|
| 1 | State Level: VC under Chairmanship of Add. Chief Secretary/ PHS, M&H | 10 |
| 2 | State Level : VC by Mission Director, NHM | 11 |
| 3 | State Level : VC by Director (PH) | 5 |
| 4 | Zonal Level VC by State TB Officer | 35 |
| 5 | District level VCs | 68 |

Impact on TB Notification Trend-2020

| 2 | Treatment Initiation Status |
| 3 | Contact Tracing & Chemoprophylaxis |
| 4 | TB Comorbidities & Bidirectional screening |
| 5 | ACF Details, Treatment outcome Status |
| 6 | DBT (Bank account seeding, pendencies) |
| 7 | DRTB diagnosis, treatment & outcome |
| 8 | Usage of NikshayAushadhi up to PHI level |

Secretary, Medical, Health & FW, Rajasthan, MD (NHM), Director (PH), STO reviewing districts performance

It is important to continue to provide TB care services despite the focus on COVID 19 related activities as TB remains the leading infectious killer in the world. Rajasthan also has advantage of having Chest & TB Specialists as DTO, this brings added advantage to the state in managing TB-Covid Comorbidity reflected by 16% of TB patients knowing their covid status.

This initiative from the State provides a great platform for Districts and field staff at the Block level to share their performance, challenges, strategies, and exchange of ideas from other districts. This also opens further opportunities for follow up review and timely updating of service and outcome indicators. Furthermore, the constant supervision also ensures necessary sensitization of staff and boosts their morale.
